# Classic Series Refrigeration

## Classic Series Refrigeration

In the 1950s, Sub-Zero pioneered the concept of built-in refrigeration. Today, our Classic Series represents the iconic look that comes to mind when one hears "Sub-Zero" with a visible grille and powerful hinges that stand the test of time.

- Split Climate™ intelligent cooling system consistently optimizes refrigerator temperature within 1 degree of set point.
- ClearSight™ LED lighting scheme fully illuminates the interior and reduces shadows.
- Advanced water filtration and air purification systems.
- Handle options coordinate with Wolf cooking and Cove dishwashing products.
- Flip-up grille provides easy access for routine maintenance.
- One 90° door stop included.
- All models are Star-K certified.

### MODEL NUMBER KEY

# PRO Series Refrigeration

---

## PRO Series Refrigeration

The only thing more impressive than its bold exterior is the groundbreaking technology and design found inside the reimagined PRO Series. Fitted with the most advanced preservation system, the PRO 48 and PRO 36 continue to fulfill our promise of keeping food fresher longer. Crafted with stainless steel inside and out, it checks all the boxes for those desiring the most luxurious, professional aesthetic. And now in a smaller width, it opens up new design opportunities for small and large kitchens alike. The PRO 36 and PRO 48 are available with or without a glass door and may be either built-in or freestanding.

- Can be used freestanding or installed as a standard or flush built-in application.
- Handles coordinate with Wolf ranges.
- Stainless steel interior and exterior.
- Dual refrigeration system enhanced with dual evaporators allow independent control of storage conditions in refrigerator cabinet and drawer compartments.
- Advanced water filtration and air purification systems.
- Exterior touch control panels.
- Flip-up grille provides easy access for routine maintenance.
- All models are Star-K certified.

# Wine Storage

## Wine Storage

To preserve the integrity of every glass, Sub-Zero Wine Storage units are more than just coolers; they are built with advanced preservation technologies and protective features that guard against the harmful effects of heat, humidity, light, and vibration. Cherrywood-faced shelves, soft lighting, custom cabinetry if desired—Sub-Zero helps make a wine collection an element of beauty in the home.

- Overlay, flush inset, stainless steel, and integrated design options complement Classic Series, Designer Series, and Designer Undercounter units for dual installation.
- Full-view glass door on all models.
- Discreet interior lighting with illuminated display shelf.
- Two independent storage zones maintain temperature, humidity, and UV protection.
- Cherrywood-faced shelves display the wine beautifully and accommodate 750 ml bottles, half-bottles, and magnums.

## Grills for Side-by-Side combinations

Duo installations as described on earlier pages is only possible with two single door models with hinges of both units at the outside of the door. All Stainless Steel (/S) units from the ICBBI and ICBBW series can be installed side-by-side with a custom made solution. This contains a full width grill and a full width plinth and a gapfiller between the units. This gapfiller is necessary to guarantee the correct air-flow and to open the door smoothly. Overlay models (/O) can only be installed following the standard duo-installation solution. This means two single door models with hinges of both units at the outside of the door. If two units with the hinges at the same side needed to be placed side-by-side than the installation should be seen as two single separate installations.

### EXAMPLES:

- (1) SS models with overlay grill, plinth, gap filler
- (2) Overlay models with hinges at the same side

(1),(2),(3) are referring to the illustrations at the right side

Optional stainless steel gapfiller

DESCRIPTION	NUMBER	PRICE
<b>Stainless steel</b>		
Gapfiller	900LC	€290

*Stainless Steel gapfiller with wooden base for all ICBBI and ICBBW models in side-by-side installations. De gapfiller results in a distance of 35mm between the two unites (7mm is invisible.). This solution is in stead of duo installation kit.*
